***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: applicant's response of July 23, 2004 has placed the application in condition for allowance. First, applicant has filed a new Oath/Declaration which is deemed acceptable. Applicant's petition has been approved, and the inventorship has been changed by adding inventor Stuart Edwards. Also, applicant has added new Figure 11 which was originally presented in US Patent No. 5,728,143 which patent was incorporated by reference. The addition of this figure is deemed acceptable. The claims now define a method whereby an RF electrode is deployed from the distalmost end of an elongated delivery device. Both the Stadelmayr reference and the Edwards et al ('675) reference deploy electrodes proximally from the distalmost end of the elongated delivery device, and there is no suggestion in the prior art to motivate one of ordinary skill in the art to alter the deployment position to the distalmost end of the device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Peffley whose telephone number is (703) 308-4305. The examiner can normally be reached on Mon-Fri from 6am-3pm.
